The *Mighty Max* is the monthly newsletter of the U.S.S. MAXIMILLIAN (NCC-74997) STAR TREK FAN ASSOCIATION. This is only a fan publication, not to infringe upon any copyrights, trademarks, or licenses of VIACOM, Paramount Pictures Corporation, or associate organizations and corporations.

THE MAX RETURNS HOME!

The Maximillian returns to the Whetstone Branch of the Columbus Metropolitan Library on North High Street at the Park of Roses beginning next month. Meetings to be held on the second Saturday of every month at 5:00 PM.
Next meeting: April 4th.

FIRST OFFICERS LOG:

Commander Elaine Jackson, first officer.

Greetings to the crew of the *Maximillian*. I'm sorry I didn't get an article in for the February newsletter, but I've been very busy with my studies. I have also been busy getting records and other things ready for the events to take place at the March meeting.

Brandy had made honor roll at her school for the second grading period, and I am very proud of her. This is the first time ever for her. There is a lot of things coming up, and I hope everyone is able to participate in some way. Congratulations who

made it to three years or more on this ship. Also, congratulations to Ben Ayers and Chris Stephenson for the Starship Achievement Award. Hope to have more to say for April's newsletter. Until next time.

ENGINEERING REPORT:

Captain Terry McPherson, chief engineer

Greetings to the crew of the *Maximillian*. As of this stardate (stardate 51197.2 (or today for all you Earthlubbers)), it is my honor and duty to inform you that I will be taking over the reins of commanding officer for this Organization. At this time, I would like to invite any member of the *Maximillian* to feel free to voice any ideas or input of any kind that will promote our Organization in the

public eye. To further the growth and prosperity of the *Maximillian* and the *Star Trek* community. It is my intention to include and implement in a positive way, the many good ideas and special talents of our crew; and thereby provide an opportunity for crewmembers to have an opportunity to advance in grade rank. Rob has new pretty shiny things for everyone to buy, and we

have A WHOOLLATTA certificates to hand out. I hope you like our mini-flag/change of command/awards ceremony (By the way, Admirals Rob and Matt chose the music. Pretty rad). Hail the admiral, he's so cool! Some surprise guests may arrive also. Time for your friendly neighborhood Vulcan to sign off. Yes, that's me! As always, Live long and prosper, and ear tips up! END REPORT.

SCIENCE REPORT:

Lieutenant Commander Robin Kulas, Science Officer

Have you read a good book lately? My husband bought me a great four book series for Christmas entitled *Invasion*. Book one stars the original series characters encountering a species called "The Furies" (The Klingons call them "The Havoc"). They appear to be demons, Medusas, gargoyles, or the devil himself from our old mythology. Several thousands of years ago, there was a battle that

cast them to another part of the universe. Now they come back to conquer us. Even the Klingons fear them! Each book is written by a different writer. Book two uses the *Next Generation* cast; book three uses the DS9 cast; and book four, the *Voyager* cast. Currently, I am in the middle of the second book. These books are some of the best books in the *Star Trek* universe. Take care till next month.

18- Rob's Birthday.

MEDICAL REPORT:

Lieutenant Nathan Cobaugh, Chief Medical Officer

Look out it's green clovers! Keep an eye out for that pot o' gold. Actually, according to Pinky, there's chocolate inside each piece of gold. Brain, on the other hand, has this crazy notion to dress up like a leprechaun, come out with a pot of gold cereal that has a chocolate center, and create a jingle which everyone will love and wind up worshipping him as the right-

ul world leader.

I, on the other hand, have received new orders through which will require me to be stationed at various interstellar commerce and trade routes via conventions. I apologize for any temporary absences, and will attempt to keep sickbay in tip-top shape.

MOBILE GROUND FORCES STARFIGHTER WING REPORT:

Lieutenant Colonel Randall Jackson, wing commander.

Greetings to the *Maximilian* crew. This is the Wing Commander of the few and the proud. First off, I would like to say that the Mobile Ground Force Starfighter Wing has grown by two members: Captain Chaz McGinnis, and Second

Lieutenant Jeremy Taylor. Welcome back, Chaz, and welcome aboard Jeremy. Give these outstanding new officers a warm welcome. Secondly, Admiral Lyon and I are currently developing a program where one can earn

"starfighter pilot" wings. There will be four levels: Basic, Senior, Master, and Ace. More on this as we work out the details. Again, congrats to Captain Terry, and may God have mercy on his soul.

COMMUNICATIONS REPORT:

Lieutenant Commander Cynthia Ayers, chief communications officer

Dear Max Friends,
Hope you are all doing well and have had a good winter. I'm glad that it is almost over even if it has been a mild one! I'm looking forward to warmer weather and conventions!!!

I just received another letter from Perkins Observatory talking about their need to replace \$100,000 per year in funding that OSU provided in past years. I hope and pray that we can help them out. I will talk more about it at the March meeting.

I want to thank Rob for the great work he does for the ship. He can certainly create miracles on the computer! His new regulations and by-laws book is a wonder to behold! I also want to thank Terry McPherson as the new CO for doing a great job keeping in communication with everyone! *Star Trek* has been in the *Columbus Dispatch* recently with an article Feb. 8 on "Star Trek: The Experience" in Las Vegas and another article on the DS9 episode "Far Beyond the Stars" about the regular cast members going back in time to the

1950s. Avery Brooks did a great job as a science-fiction magazine writer who tackles 50s racism by writing about "a space station led by a black captain." It was a wonderful episode, well-written and dramatic. It was also great to see the regular cast members of DS9 without their make-up! There was also another great episode with 3 cast members in a very small shuttlecraft going around the *Defiant* unnoticed in order to save it from the Dominion. It was a fantastic episode also! If you liked those episodes also I hope that you will join me in writing a letter of support to Paramount.

Also in the news: our own John Glenn passing a centrifuge test as part of his training to be on the *Discovery* shuttle flight in October, 1998. The test was conducted on the eve of the 36th anniversary of Glenn's historic flight on *Friendship 7*. There was also an article in the *Travel* section of the *Columbus Dispatch* (Feb 15) about the new attractions at the Kennedy Space Center at Cape Canaveral. I would

love to go there! Being there to see a shuttle launch would be beyond fantastic! Finally, there was an article on images being returned from the Mars Global Surveyor mission that give strong evidence that there were rivers and possibly even oceans on Mars! There are preliminary plans for the launch of an unmanned lander on Mars in 2004 or 2005 to gather rock, soil, and ice samples. Scientists are being careful that future missions to Mars do not contaminate it with organisms from Earth. It's great that we are now being concerned about risks like that now.

The only news that I have about conventions is that the Feb 4 (Nichols, Doohan, Tekei, and Koerig) will be in Buffalo, N.Y. April 4,5 and in Charleston, W.Va. June 27 & 28.

Love long and rejoice always,
Cynthia Ayers.

SECURITY REPORT:

Lieutenant Jim Walters, chief security officer.

Greetings and salutations to all gentle beings. As you know, we need all the help we can get in security. It must be all the away missions or someone has changed our uniforms, and put circles on our backs. Maybe we should change back to red uniforms for security

in order to hide the BL## target. As I sit here all broken-hearted at Starbase 315, it gets a little slow directing traffic.

All of you, me, myself, and I, would like to congratulate Terry McPherson, or should I say Captain McPherson,

for his promotion. Just to let the captain know, no matter how much trouble you get us into, we as security will stand behind you all the way (way behind you, ha ha).

Sincerely, The "Fuzzy Lieutenant."

MASTER RAFIKIS DOJO:

Captain Chaz McGinnis, MGF Starfighter Pilot

Hello to all the members of the *Maximilian*. First of all, I would like to say, "hail monkey." (In future articles, I will go into more details about 'hail, Monkey,' won't I, Admiral Lyon?) As for Captain McPherson, we are in trouble now! We have a spin-off of Tim Allen on the ship now. I can imagine the first time we lose warp drive Captain McPherson saying, "I need more POWWWERRRRR...HURRRR...HURRRR!!! OOOHHHHH!! DUCH! I meant to the ship, not to the Captain's chair. Oweee! That tickled!" And from Engineering, you hear Pinky saying, "Uh, Sorry Captain, *Fait*."

In all seriousness, congratulations to Captain McPherson. You are well deserving of the position, and congratulations to Commander Elaine Jackson for her election to first officer.

I feel in this first article, I will not write anything on self-defense, but after you get to know me a little better, since this is the only way that you will have any contact with me for a while, My name is Charles (Chaz) McGinnis. I am twenty-four-years-old, and I am married... with children. My wife's name is Tracey (22 years old). I have a son named Charles F. McGinnis, soon to be three years old, and a baby girl due to be born on April 17, 1998. I work in the transportation department at Sygma Network. For those who are not familiar with the name, we deliver food orders to restaurants such as Wendy's, Ponderosa, etc. My hobbies are coin collecting, video games, bowling,

and, of course, *Star Trek*. Now for a little of my martial arts training: For almost twenty years now, I have been in the martial arts, and I have studied tae kwon do, and shon ru, and jujitsu. And before anyone asks, no, I don't have a black belt. Let me tell you why. As growing up, I had to move a lot from state to state to see new doctors for my Dad, so it was very hard to stay long enough at any school to get a black belt. For a few years, I had to stop training, but for the last year, I have been training in a new style called kajukenpo (ka-jee-kenpo). It's a mixture of five styles, and in the next issue, I will give a brief history of kajukenpo. My sensei (Sensei (sin-say) is Japanese for instructor), Kathleen Wayts, yes a woman, and she is a very good sensei, and she has the heart of a Klingon warrior. She has earned my utmost respect, and that, as Admiral Lyon can vouch for, is very hard to do—for he is one of the few who have also earned my respect. Well, I think it is time to close, but get ready for Master Rafiki's article next month.

MASTER RAFIKI'S QUOTE FOR THE MONTH:

"The power is within, all you have to do is open the door."

ADAKAS CORNER

Lieutenant Adelyn Upp, Logistics Officer

Due to recent developments, I will be able to reduce the cost of some of one of my uniform items. The First Contact uniform jackets with 7" zippers and the First Contact pullover uniform shirts will now cost \$40.00 as opposed to the previous \$65.00.

FIRST CONTACT JACKETS:
\$40.00

FIRST CONTACT PULLOVERS:
\$40.00

CAPTAIN'S VEST:
\$40.00

ADMIRAL'S UNIFORM
\$80.00

Prices are for SMALL through LARGE. Larger sizes will be slightly more. See me for details.

INTELLIGENCE REPORT:
Lieutenant Beth Walters, chief intelligence officer

LT Beth Walters here. First of all, I would like to give warm, fuzzy greetings to the Command Staff and the crew. I would like to clarify the rumors that I have been hearing about jumping ship or getting transported into the Delta Quadrant to some unknown world. As you all can see, I am much alive and well.

There has been so much going on that I have to apologize for missing the past few meetings but I had been going through some rough times but as of now things seem to be doing better. It was beginning to look as though I were to have to take some unwanted time away. On the brighter side, LT James Walter (a.k.a. Fuzzy James) and I have just moved into a new apartment as of December. We are still trying to get things organized a little better, but its been a real pain since we had only the weekends to get it done. It never ceases to amaze me of the junk that one seems to accumulate. Also Jim and I just celebrated our 9th wedding anniversary as of February 14th (Valentine's Day).

I would like to take the opportunity to congratulate Captain Terry McPherson on his promotion to Cap-

(Continued on page 6)

COMMISSIONERS ADDRESS:

Founding Admiral Robert S. Lyon, commissioner.

Greetings to the crew of the *Maximillian*. Another month, another newsletter—and what a month it was! For the *Maximillian*, Promotions, reassignments, and a new captain. Congratulations to Captain Terry "Tamak" McPherson for winning the first-ever MaxElection. I have every confidence he will serve this crew well.

First off, I have always been A lot of awards and decorations are for their activity with this Organization here it goes. Congratulations to earned the COMMANDING OFFICER'S term as commanding officer, and relieved of command of the *Maximillian*. our membership as a senior advisor Board (which now consists of myself, Rear Admiral Dunn, and now Rear Admiral Morris). Admiral Morris is the second member to receive this award in the six years of this Organization. I still have to get with him to determine his specific title with the Admiralty. On behalf of myself and the rest of the membership, I would like to say Congratulations, Admiral, and thank you.

one to give credit where credit is due. going out in March to various members tion. This may take a little while, but Rear Admiral Matt Morris, who has SERVICE AWARD, having served his ing been honorably and properly re- He will continue to give his service to to the command staff on the Admiralty

Congratulations to Captain Terry McPherson for earning the STARSHIP COMMAND BADGE by being elected and serving as Commanding Officer. Captain McPherson is the third MaxMember to receive this badge, and both Admiral Morris and I have full confidence he will lead with the best interests of the crew, and in carrying out the by-laws, regulations, guidelines, customs and traditions of this Organization. Congratulations and good luck, Captain.

I have two members who gain recognition this month for their service to this Organization, both earning the STARSHIP ACHIEVEMENT AWARD. Congratulations to Chief Warrant Officer of Operations Ben Ayers, who earned this medallion for his dedicated service and time to the youth members of this Organization this past fall. He had done a fine job providing activities for the youth members during our meetings, and I am confident that he will continue to contribute to the betterment of our Organization. Congratulations to Lieutenant Chris Stephenson for his dedication to project CyberMax, the development of our website on the internet. For those of you who have internet capability, I recommend that you see this site. He has put his time, heart, and blood into this site, and it certainly shows. Lieutenant Stephenson will continue to upgrade and develop the site. Congratulations to both Chief Ayers and Lieutenant Stephenson for a job well done, and many thanks to both of you.

Congratulations to the following members for earning the MEMBERSHIP IN GOOD STANDING MEDALLION, earned by being a member of this Organization for a total of three years: Chief Warrant Officer of Operations Ben Ayers; Lieutenant Commander Cynthia Ayers; Crewman Second Class Brandy Jackson; Commander Elaine "Teela" Jackson; Lieutenant Colonel Randall "Korjac" Jackson; Lieutenant Commander Robin Kulas; Lieutenant Junior Grade Tom Kulas, and Lieutenant Mike Vaughn. These individuals are now considered veteran members of this Organization (Lieutenant Vaughn is a returning founding member), their service and contributions to the membership of this Organization is invaluable. Again, congratulations and many thanks to all of you. I hope to see you as members for many years to come.

Congratulations to Rear Admiral Matt Morris and Rear Admiral Greg Dunn for earning their second presentation of the MEMBERSHIP IN GOOD STANDING MEDALLION, for reaching their sixth year of membership with the *Maximillian*. Their service and undying dedication to this Organization has been crucial in the survival of this Organization. On behalf of the entire crew, I give Admirals Morris and Dunn many thanks for everything they have done for this membership.

Congratulations to Lieutenant Chris Stephenson for earning the SECTION WARRANT OFFICER SERVICE AWARD for his service aboard the *Maximillian* as a youth member. Lieutenant Stephenson will be assuming the duties of Operations Manager this month.

Congratulations to Lieutenant Adelyn Upp, who satisfactorily met the requirements as prescribed by the USS *Maximillian By-Laws, Regulations, and Guidelines* for advancement by one grade to the senior commissioned officer rank of LIEUTENANT COMMANDER. Congrats for a job well done, Adelyn.

Congratulations to Lieutenant Junior Grade Debbie Ouellette, who has been reviewed for and appointed by the Command Staff to the position of PUBLIC RELATIONS OFFICER. Her background and past dedication to this

(Continued on page 6)

(Continued from page 5)

Organization makes her more than deserving for this position. Congrats, Lieutenant.

Last, but certainly not least, much thanks and gratitude to Lieutenant Commander Cynthia Ayers and Lieutenant Commander Adelyn Upp. Commander Ayers had graciously invited the *Maximillian* to hold the Sixth Anniversary of our Organization at her home in May. Commander Upp will be preparing the majority of the food items for the upcoming anniversary. Both officers will be coordinating with one another for this event, and will be planning a significant part of the Anniversary. My deepest thanks and gratitude to both Cynthia and Adelyn.

Though there was a significant number of awards and promotions granted this month, I suspect that there are many more that go unrecognized this month—not necessarily because of space in the newsletter, rather that the Command Staff remains unaware of individual members' progress. We have around forty active members at this time, and even that is too difficult for I, or Terry alone to keep track of effectively. This is why members must maintain their promotion points and activities in order to gain recognition. Not much pleases me more with this Organization than to recognize members for their contributions where recognition is due. I have been saying since the day Greg and I started the *Maximillian* that members should get out of the Organization what they put into it. The more you do, the more you get out of it. On the other hand, if one wants to remain an ensign or a lieutenant forever, more power to them—if one wants to advance in rank, or earn awards, then one must maintain an accurate record of their points, or risk going unrecognized. Captain McPherson and I put together an up-to-date list of promotion requirements, which will be provided to you. Some of you may be promotable now or in the near future. If you feel you are one of them, by all means, talk to the Command Staff to review your progress.

One last thing—new ActionWear items are now available. These include sweatshirts in department colors and embroidered rank patches for the sleeves of ActionWear Jackets. The rank patches are very beautiful, and they are sold in pairs. (SEE my ActionWear Jacket or LT Stephenson's jacket).

That's all I have for now. Until next month. Later.

OPERATIONS REPORT:

Lieutenant John Upp, operations manager.

Greetings and El Niño warnings! This month's report has to do with weather problems and solutions. The biggest problem we all have with our old friend El Niño is that any time El Niño happens, the weather goes berserk. We all know that scientists throughout Earth culture has this real big hang-up about the so-called global warming. With an El Niño pat-

tern, you have a serious problem of opposites. Where it was once dry and desert-like, it is now swampy. Where it was once cold and clammy, you have the tropics. And in places where it should be warm and humid, like it is in the tropics, it is cold and dry. The biggest solution for a weather problem such as El Niño is to invent a device known as the weather control matrix, for use to negate the effects of El Niño.

As a final note, on the 14th of March, I will no longer be Operations Manager. I will assume the duties of the ship's chief engineering officer.

Until we actually have the weather control matrix, and see the sun, enjoy it when you have it.

Sincerely yours,

LT UPP
JHU

(Continued from page 5)
tain. Sorry Terry about being a little late. I know deep down that he will do one heck of a job and if there is anything that I can do to assist him, all he has to do is ask.

I realize that this is in poor taste due to the Clinton scandal, but I couldn't resist.

What does Clinton wish he had that Kennedy Didn't?

Answer: A dead girlfriend.

Well, I guess it's time to sign off for now.

LT Beth Walters.

**NEXT
ISSUE**

The *Mighty Max* is published monthly for the members of the U.S.S. *Maximilian* Star Trek Fan Association. Everyone may submit material to this publication. All submissions may be sent to:

ROBERT S. LYON
521 HARLEY DR, APT 6
COLUMBUS, OH 43202

OR

MATT MORRIS
6028 DARBY LANE
COLUMBUS, OH 43229

To dictate article or report for the *Mighty Max*, you may also contact ADM Lyon after 6pm Monday-Friday at:

(614)263-5473

You may also send your report via e-mail at the following address:

r19601@devrycols.edu

The USS *Maximilian* meets the second Saturday at 5:00 PM of each month in the front meeting room of the Karl Road branch of the Columbus Metropolitan Library.

Meetings usually last an hour or two, followed by a POST-MEETING ACTIVITY.

Members from other Organizations are welcome to submit material for this newsletter, so long as said material fits within the editing specifications of this Organization.

ALL SUBMISSIONS FOR NEXT ISSUE ARE DUE NO LATER THAN

27 MAR 1998
NO EXCEPTIONS!

MAX-ACTIONWEAR

1. **COMMAND CAP, STANDARD CREW:** Black in color. Cap has "USS MAXIMILLIAN" and "NCC-74997" embroidered on front in non-metallic gold thread. Bill is plain. NEW MEMBERS:

YES! I want to join the U.S.S. *Maximillian*. I choose the following membership option:

ACTIVE DUTY MEMBERS are active in ship's functions, and have the option to hold rate/rank and position on board. If you now belong or have in the past belonged to another local *Star Trek* Fan Organization, please attach the name of the Organization, and the last rate/rank and position you earned.

ASSOCIATE CORRESPONDENT MEMBERS are not active in ship's functions, however they do receive the *Mighty Max*.
