The *Mighty Max* is the monthly newsletter of the U.S.S. MAXIMILLIAN (NCC-74997) STAR TREK FAN ASSOCIATION. This is only a fan publication, not to infringe upon any copyrights, trademarks, or licenses of VIA-COM, Paramount Pictures Corporation, or associate organizations and corporations.

CAPTAINS LOG, STARDATE 52619.1:

Rear Admiral Matt Morris, Commanding Officer.

COMBAT 1983 THE 380933

Happy Anniversary to the cast and crew...D'OH!...I mean crew of the *Maximilian*. That's the good news.

The bad news is I'm not seeing proper submissions from my department heads that are required to be submitted. Therefore, even though this is our anniversary edition, it's not going to look very good. Due to time constraints, and lack of submissions, it's going to be one empty newsletter.

Since I am now in charge of the newsletter once again, I'm going to be a tad strict with this project. Once again, if the deadline for submissions is not met, there will be empty spots, or an empty newsletter. This newsletter is for promotional and group use, therefore it is up to the membership to provide the contents. Every so often I will be putting in what is referred to as "filler," but not every issue. The more ideas that come to me, via personal communication or e-mail, or even snail mail, the more your newsletter will have. Once again, you have two e-mail options: the first is

romulan 666@yahoo.com

This one is the one I use the most.

Or you can reach me at:

nanoo8@hotmail.com

For more options, my snail-mail address is located on the back cover. And coming soon, a new pager number which will be added at a later time. So, as you can see, I'm not exactly hard to get a hold of.

One last option: personal communication device also known as a telephone, but keep in mind, that it also is brought to you by my parental units, in other words they pay the bill, so no calls before 9AM or after 10AM. There is an answering machine, feel free to leave a message, and I'll get back to you as soon as possible. That number is (614) 891-4839.

Codos time! Going out to Dr. Nathan Cobaugh and P.R. chick LT

Debbie Ouellette for their timely and informative submissions to the newsletter. Promotions: Congrats to Adelyn Upp and Robin Kulas for their recent promotions. Keep up the hard work.

On to some more business. As you may have noticed, I have not been able to attend the last couple of meetings. That is due to my work schedule that I cannot get Saturdays off. My average departure of time from the job is anywhere from 6:30 to 7:00 pm. That was my reasoning into wanting to change the meetings to Sundays. But, since that was voted down, I will be in constant communication with the first officer, who will run the meetings as I lay down to her. This means I maintain command, and the first officer runs the meetings until I can figure out a way to change it.

One suggestion: Possible later starting time, but people have to be in the building before 6:00 PM when the library closes.

Here's to another seven productive years of the *Mighty Max*. Until next time, That's it.

CMO REPORT:

Doctor Nathan Cobaugh, SMD, CMO of Happiness and Joy

GREETINGS from your neighborhood CMO. I am a doctor not an actor. I know that I have been a little slow in attending meetings, however, I decided to go to Kansas City, MO at the last minute to see Leonard Nimoy and John DeLancie, the Duras sisters, Gary Lockwood, Beverly Washburn (Old Yeller/The Deadly Years-ST-TOS), and Grace Lee Whitney. Leonard and John read a script from their upcoming CD this fall, WHEN SPOCK MEETS G. Needless to say Leonard and

John have started an organization called AlienVoices, which is also a web site at AlienVoices.com, where they read classic novels and adapt them to stage shows on CD. You can get them at any bookstore, made in partnership with Simon & Schuster. It was a very fun time and I also would like to bring up an opportunity that I hope may be an option for our fan club at the next meeting. I have shared it with Rob already. There is also a movie that has been released called THE

MATRIX, about how humans are being used to power artificial intelligence and as a result are really living our lives inside a matrix of a computer intelligence that has managed to allow our minds to be convinced that this computer based reality is the reality that we live in. If you like a good movie that questions reality or you really get into twisted computer type movies than this is for you. CMO, Nathan Cobaugh, U.S.S. Maximilian, UFP: signing off
